CELECT ORDER CHECKLIST

Please be sure to double check if all items necessary for a Celect installation have been ordered. The following are guidelines that should be checked before finalizing order.

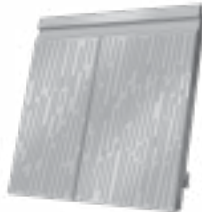

- FURRING STRIPS**
(Utilized with all window and door accessories and outside corners.)
Average job requires 4-5 furring strips per square. Larger trim profiles may require to double up.
- STARTER STRIPS**
Average job requires 1 starter strip per square.
- OUTSIDE CORNERS**
- INSIDE CORNERS**
- WINDOW AND DOOR ACCESSORIES**
Utilize 5/8" trim for the most cost effective trim pack out and matching corner width.
- CORTEX SCREWS WITH COLOR MATCHED PLUGS**
(Used with all accessories, inside and outside corners.)
Each carton covers an average of 250 lineal feet of accessories.
- CELECT BLOCKS AND MOUNTS**
(Kynar color matched with Celect colors, vinyl products will not work based on expansion pocket.) For best result, match siding color.
- TOUCH-UP BOTTLES OR MARKERS**
(Kynar Paint) Average job requires 1-2 bottles for the siding and 2-4 bottles for the trim and accessories.
- PVC GLUE**
(Some window surrounds and accessories will require glue.)
- SOFFIT OR CELECT BEADED PORCH PLANKING**

INSTALLER HAS BEEN TRAINED FOR INSTALL AND HAS WATCHED CELECT INSTALLATION YOUTUBE VIDEOS.
